INFORMATION DISCLOSURE STATEMENT

The undersigned herewith requests the Examiner to consider the art listed in the attached Disclosure Statement (PTO 1449) in examination of the above referenced U.S. patent application. Copies of the listed Art are enclosed.

DE 100 29 132 A1 in particular column 1 line 36 to column 2 line 20 discloses an electrical hand tool device comprising a control electronics and a transmitting/receiving means which is responsive in a wireless and contact-free fashion, and with a storage means in which an authorization code is stored, wherein an operation locking state and an operation release state can be differentiated, and with an external receiving means which is accommodated in a separate portable device. Actuation of the external receiving means produces defined communication with the transmitting/receiving means of the electrical hand tool device when the operation state is to be changed, and communication is only provided for changing the operation state.

DE 38 17 621 A1 discloses a device having input means covered by a pivoting or flipping lid disposed on a housing.

This submittal is being made under 37 CFR 1.97 (c) and (e). No fee is due. If any fees are necessary, please charge same to Account No. 50-1030.

I hereby certify that no item of information in the Information Disclosure Statement filed herewith was cited in a communication from a foreign patent office in a counterpart foreign application and, to my knowledge after making reasonable inquiry, was known to any individual designated in 37 CFR 1.56 (c) more than 3 months prior to the filing of this Information Disclosure Statement.
